HIDDEN GEMS - SPRINT 1 PLAN
FOR SPRINT ENDING: OCT 19 2016

The goal of this sprint is to design and create a working minimum viable product (MVP). We will focus on using a Maps API and user management for users to use.

TASKS
- As a user, I would like to be able to create an account so that I can login
    - Set up database
        - Time estimate: 1 hour
    - User management API
        - Time estimate: 4 hours
    - User interface for signup up and login
        - Time estimate: 2 hour
- As a user, I would like to see a map so that I can see places around me
    - Set up Google Map API's backend
        - Time estimate: 4 hours
    - Set up user interface to show map on the Web App
        - Time estimate: 3 hours
- As a user, I would like to be able to search for specific areas through search
    - Set up API to search for sending Zip Code to Google Map and get location
        - Time estimate: 3 hours
    - User interface to get ZIP Code
        - Time estimate: 1 hour
    - Scroll to the ZIP code's location on the map
        - Time estimate: 3 hours
- As a user, I would like to pin drop a particular location
    - Set up Google API to allow pin drop a particular location
        - Time estimate: 3 hours
    - Get the location's coordinates or addresses
        - Time estimate: 1 hour

SCRUM TIMES
Our team will meet three times a week, Monday, Wednesday, and Friday after 1:00 P.M.
